DETAILED ACTION

Response to Amendment

The amendment filed on January 28, 2010, has been entered and acknowledged by the Examiner.

Claims 1-10 are pending in the instant application.

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed January 28, 2010 arguing that the use of a distyryl arylene as the host material does not characteristically result in a glass transition temperature greater than 85 degrees Celsius since glass transition temperature is dependent on the molecular weight of the material are found persuasive.

Regarding independent claim 1, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation wherein the host material for the luminescent layer of an organic el panel comprises distyryl arylene or derivatives thereof and has a glass transition temperature of 85 degrees Celsius or higher.

Regarding claims 2-5, claims 2-5 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding independent claim 6, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 6, and specifically comprising the limitation wherein the host material for the luminescent layer of an organic el device comprises distyryl arylene or derivatives thereof and has a glass transition temperature of 85 degrees Celsius or higher.

Regarding claims 7-10, claims 7-10 are allowable for the reasons given in claim 6 because of their dependency status from claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne M. Hines whose telephone number is (571) 272-2285. The examiner can normally be reached on Monday through Friday from 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nimesh Patel can be reached on (571) 272-2457. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
